U. S. DISTRICT COURT.-This court met this morning, Judge Underwood presiding. The grand jury came into court and brought in but one indictment—against Robt. T. breaking up of the ice indulged in during the first part of the week, have not been realized, during the nights as it melts during the days. Persons from Quantico report that the ice was running there night before last, but that it has since frozen hard again. The steamer Lady of the Lake, from Norfolk for this city, arrived at Quantico yesterday, but was compelled to stop there in consequence of the thickness of the ice above that point. The steamer John Gibson, which sailed from New York for this port on Saturday last, it is thought, has also reached Quantico by this time. The steamer New York, due here from Philadelphia, is frozen in at Chesapeake city, but it is reported that the ice is rapidly running out of the Delaware. The track in the river here, made by the passage of a tug and a ferry boat yesterday, was frozen over again so hard last night that boys walked across it this morning, and to-day the embargo is as complete as it has been at any time during the existing freeze.

SLAUGHTER OF THE INNOCENTS. - During the dense fog prevailing early this morning a CUTLER'S POCKET INHALER. when the train had passed two dead and seven wounded steers were found lying along side of the track. The drove was composed of lots belonging to several graziers of whom Mr. Henry Horn had one steer killed and four wounded Mr. Lehr Arken had there recorded and inconvenient, is by this curious little instrument entirely overcome. It is as simple as a tin whistle, and may be carried in the pocket as handily as a penknife or a pair of seissors. No danger of breaking; no possibility of spilling; always ready, and may be used in the house or out of doors, lying down or sitting up with the supposes and facility are Wounded, Mr. John Arker had three wounded sitting up, with the same ease and facility as a wounded, Mr. John Arker had three wounded cigarette, or a lady's smelling bottle. ALEXANDRIA AND WASHINGTON RAILROAD. -The work of laying a double track on the Alexandria and Washington Railroad has progressed as far as Four mile Run, and is being pushed forward as rapidly as the weather will permit. Two double-ender locomotives for the road started from Baltimore for this city yesterday, but being unable to reach here in consequence of a sharp curve in the connection between the Baltimore and Ohio and the Baltimore and Potomac roads, had to go back .-The existing difficulty will soon be obviated, during the next few days. They are for the local trains, which, when the double track is completed, will make hourly trips between the

Business.-Business along the wharves has been exceedingly dull since the commencepearance. This state of things seems to have been reflected to the back country also for very little freight is coming here now by the railroads, the chief consignments being pork, which sells at from \$6 to \$7 per hundred

RARA AVIS. - A young man while gunning near the city, yesterday, came across a large flock of what, at a distance, he supposed to be skylarks. He fiered into them and killed eighteen at one discharge, but when he picked them up, found they were unlike any birds he had ever seen before. They were about the length of reed birds, but were broader and heavier. Their heads and neeks were particularly large, and their feet tipped with unusuala member who had been suspended for not ly long claws. They were of a mottled color, with gray predominating. It was said by some who saw them that they were some of the late importation of General Babcock.

THE CLERK OF THE COUNTY COURT.-The minutes of the one hour's proceedings of the County Court on Monday last, having been, after many corrections and revisions, approved by the Court, were signed by Judge Cockerille yesterday evening, and the January term adjourned until the term in course. The new clerk still holds possession of the office, and will do so until the next term, when he will have to show cause why he shall not be removed for incompetency.

FIRE BELL. - With the three hundred pounds of metal from the bells destroyed by the market house fire, and four hundred pounds of new metal, Messrs. Jamieson & Collins, yesterday afternoon, east a bell for the Columbia Fire Company, which, it is said, in all the particulars that constitute a good bell, is not excelled by any of those manufactured by the famous bell foundries of the North and West.

THE WEATHER -Au exceedingly dense fog prevailed this morning, and the day has been cold, cloudy, damp and disagreeable. Fogs, as all know, result from the condensation of the vapor in the atmosphere to a less degree than sufficient to produce rain. They indicate the presence of colder winds from the north and are thought to be the avant couriers of storms.

PUBLIC SCHOOLS.—The Superintendent of PublicSchools, in this place writes to the Superintendent of Public Instructions .- "I think we shall secure the old courthouse, a building of the most substantial character, for a school house. It will accommodate, when properly altered, from four to six hundred pupils."

ICE. -The ice that was being gathered from the canal basin this morning was seven inches thick, and some of the ice houses have been filled with ice of the thickness of seven and a half inches, as thick as is usually formed here and it is now thought that it freezes as much during ordinary seasons. The quality, too, is said to the excellent.

> SMALL Pox.-There were no deaths, nor any new cases of small pox reported this morning. Vaccination is progressing vigorously, but by no means too vigorously, for strange as it may seem, out of every dozen people there are two or three who have not undergone that

The annual meeting of the Columbia Steam Fire Co. will be held on Wednesday evening, January 8th, at 7½ o'clock p. m. A full attendance is requested, as the election of officers to serve the ensuing year will take place at this time.

NEW YORK, Jan. 8 .- On examination by detectives yesterday, the premises adjoining those of Mr. Kidd, in Murray street, were found to be connected by a train of fuse which could have been fired from Kidd's premises. Kidd was arrested, as stated, and his office boy testified to seeing him making the fuse. Three large warehouses were involved in this attempt and by the thoroughness of the means discovered would have undoubtedly have been destroyed had the train been fired, and many others in the block would also followed, as the trapes of fuse were nearly all laid in the upper stories and from roof to roof.
